

## We're here to help.

Quality, compassionate cancer care is closer to home than you may think: it's here, at Mount Sinai South Nassau. One of the area's leading cancer treatment centers, we offer advanced therapies—delivered by caring professionals—right here in your community.

With facilities throughout the South Shore, we provide you with the care you need, when you need it. Because at Mount Sinai South Nassau, we build our treatment schedule around your schedule so there's no loss of precious time waiting for an appointment—or hours spent on the road traveling to treatments or doctors' visits. There is free parking at every location.

# Surgical Oncology

We are accredited as a Comprehensive Community Hospital Cancer Program, by the American College of Surgeons' Commission on Cancer.

All photos, with exception of cover photo, were taken prior to the COVID pandemic. Our practitioners and patients are required to wear appropriate PPE at all times.

Except where noted, models are used in photos and their appearance here is not reflective of a specific disease profile.

## Fellowship-Trained Surgical Oncologists

### We specialize in treatments for:

- Colorectal Cancers
- Gastric Cancers
- Hepatobiliary (Liver, Gallbladder and Bile Ducts) Cancers
- Pancreatic Cancers
- Dermatologic and Soft Tissue Malignancies
- Head & Neck Cancer
  - Diagnostic Testing
  - Surgical Treatments
- Endocrine System
- Breast Surgery
  - Assessment and treatment is provided for women with both benign and malignant breast diseases
  - Treatments for breast cancer

### Working Together

One of our primary goals is to expedite consults and diagnostic procedures to reduce the time a cancer patient needs to wait for definitive therapy. Our physicians work closely with the referring physician to ensure continuity of care and important communication. Our offices use an electronic medical record allowing for detailed reports to be quickly returned to the referring physician concerning the diagnosis and treatment plan for each patient.

### Rajiv V. Datta, MD, MBA, FACS, FRCS, FICS

**Chair Department of Surgery,  
Director of the Division of Surgical  
Oncology and Head and Neck Surgery;  
Medical Director of the Mount Sinai  
South Nassau Gertrude & Louis Feil  
Cancer Center**

Dr. Datta established Mount Sinai South Nassau's Surgical Oncology program in 2001. He trained at Grant Medical College and Tata Memorial Cancer Center in India, with additional training in plastic surgery and surgical oncology in the U.K., prior to a research fellowship at Memorial Sloan-Kettering Cancer Center. He completed a dual fellowship in surgical oncology and head and neck surgery at Roswell Park Cancer Institute in Buffalo, and then served on the faculty of Maimonides Medical Center and Coney Island Hospital.

He is a leading head and neck surgeon in the U.S. and an internationally renowned surgical oncologist. Dr. Datta's approach to comprehensive cancer care is one that combines the most advanced surgical techniques with a warm and caring attitude that enables both patients and their families to feel comfortable and confident while making important medical decisions. He specializes in thyroid and head and neck tumors.

### Hideo Takahashi, MD

#### Surgical Oncology

Dr. Takahashi is board certified in General Surgery and Complex General Surgical Oncology. He obtained his medical degree from Kobe University School of

Medicine in Kobe, Japan. He completed a General Surgery Residency at Cleveland Clinic in Cleveland, Ohio and a Complex General Surgical Oncology fellowship at Roswell Park Comprehensive Cancer Center in Buffalo, New York. He is specialized in the malignancies in the liver, pancreas, and upper and lower gastrointestinal tract. He is also specialized in robotic surgery for oncology cases as well as general surgery including gallbladder and hernia repair.

### Eric David Seitelman, MD, FACS

**Surgical Oncologist  
Program Director of  
General Surgery**

Dr. Seitelman is board certified in General Surgery and fellowship

trained in Complex Surgical Oncology at Virginia Commonwealth University. Since 2012 he has been treating patients in Long Island and Queens at Mount Sinai South Nassau. Dr. Seitelman cares for patients with breast cancer, skin cancers such as melanoma, sarcoma, gastrointestinal malignancies. While focusing on breast cancer and melanoma, Dr. Seitelman works closely with plastic surgeons to achieve optimal results both in terms of cancer care and cosmetic outcomes. At Mount Sinai we have a strong multidisciplinary system where specialists work together daily to provide state of the art care. In addition to surgical oncology, Dr. Seitelman operates on large benign masses as well as being a busy general surgeon with a large hernia practice.

### Rohit Ranganath, MD

**Endocrine, Head and Neck,  
General Surgery**

Rohit Ranganath, MD is board certified in General Surgery and specializes in Endocrine and Head and Neck Oncology. He earned his medical

degree at Rajiv Gandhi University of Health Sciences in India and completed residency in Otolaryngology and Head and Neck Surgery. He completed General Surgery residency training at Mercy Catholic Medical Center in Darby, PA, followed by a fellowship in Head and Neck Endocrine Surgery at The Johns Hopkins Hospital in Baltimore, MD.

He specializes in minimally invasive endocrine surgery for thyroid, parathyroid and adrenal disorders and head and neck cancers. In addition, he offers laparoscopic and robotic surgery for ventral, hiatal and inguinal hernia repairs and gall bladder disorders. His treatment philosophy is to deliver personalized high-quality care.
