

# Diabetes Education Program

Helping patients with diabetes  
live a long and healthy life

**Mount  
Sinai  
South  
Nassau**

## Outpatient Diabetes Education Services Include:

- A comprehensive education program including individual and group classes
- Instructors who are diabetes care and education specialists
- Medical and nutrition education provided to meet patients' individual needs
- Fingertick blood glucose monitoring education
- Insulin pump education
- Continuous glucose sensor education and services
- Convenient parking
- Day and evening appointments available

**All services listed above are covered under most insurance plans including Medicare, for little to no out-of-pocket cost to you. Our staff can verify your insurance and make sure it is covered before your first visit.**

## Supportive Services to Complete your Diabetes Care Needs

### **Comprehensive Wound Care Center**

- Providing treatment and interventions to assist in healing diabetic wounds and ulcers
- Specially trained podiatrists, physicians, and certified wound care nurses
- State-of-the-art equipment and treatment modalities
